

Grand Turbo Island Cabinets

Instruction Manual

Model: SINK MODULE

Code: GTSINKK

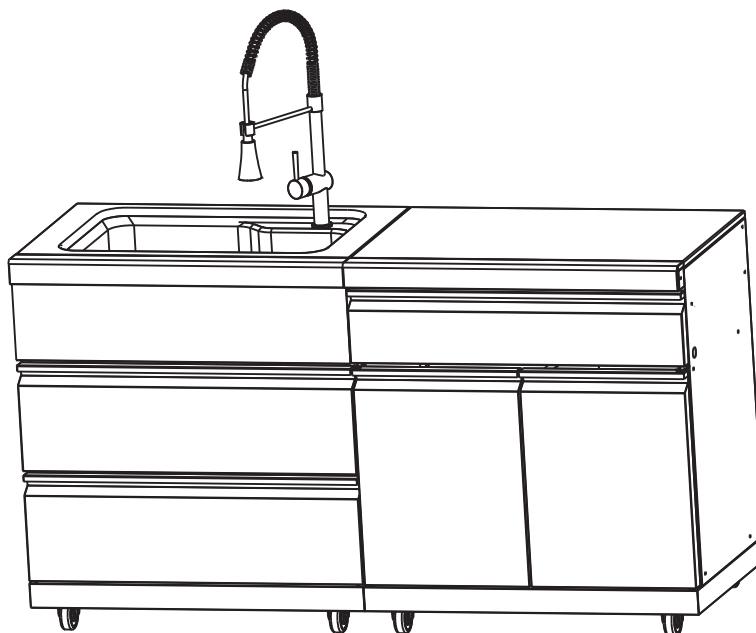

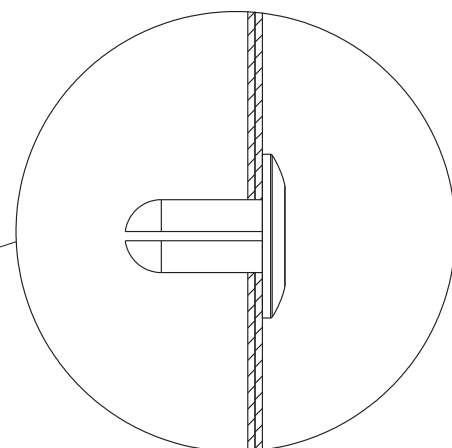

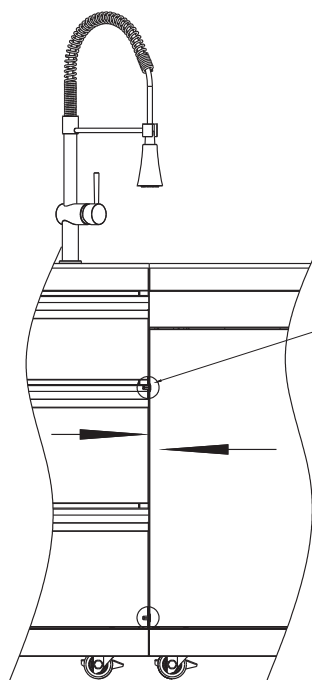

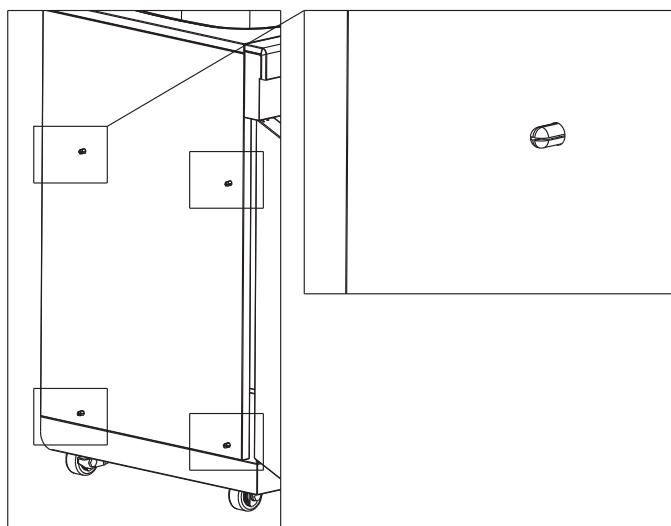

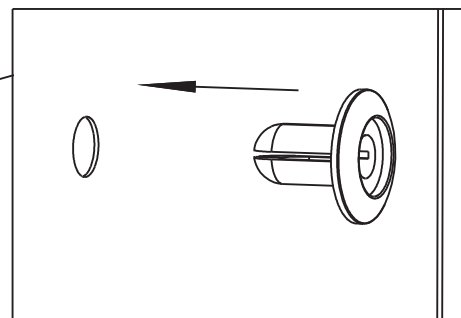

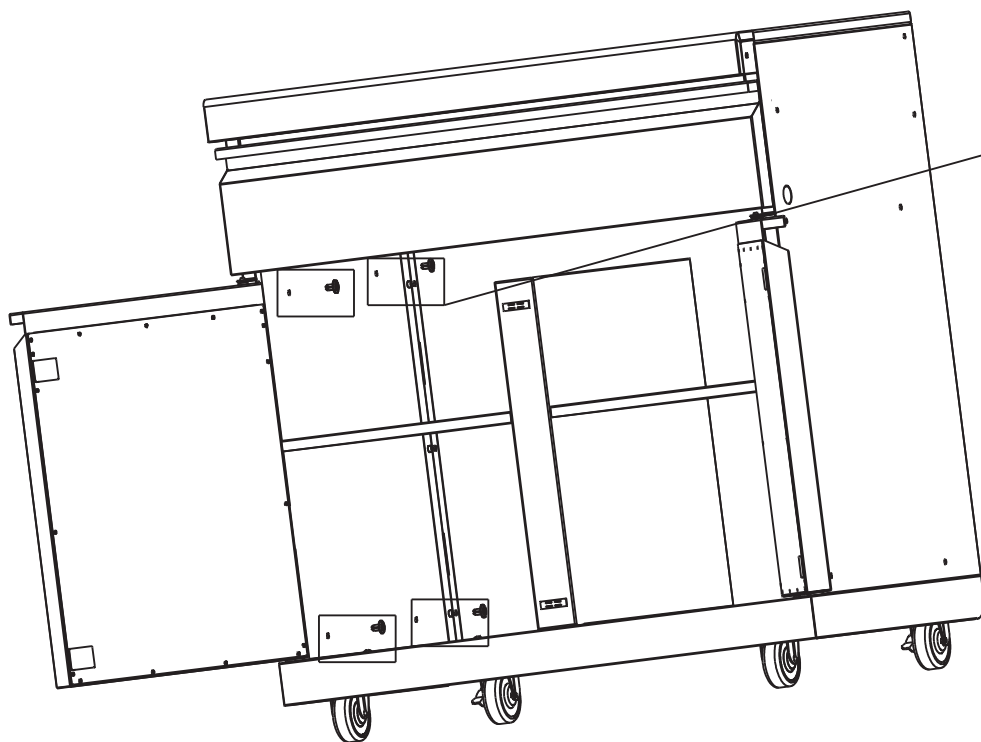

Model: STORAGE BENCH MODULE

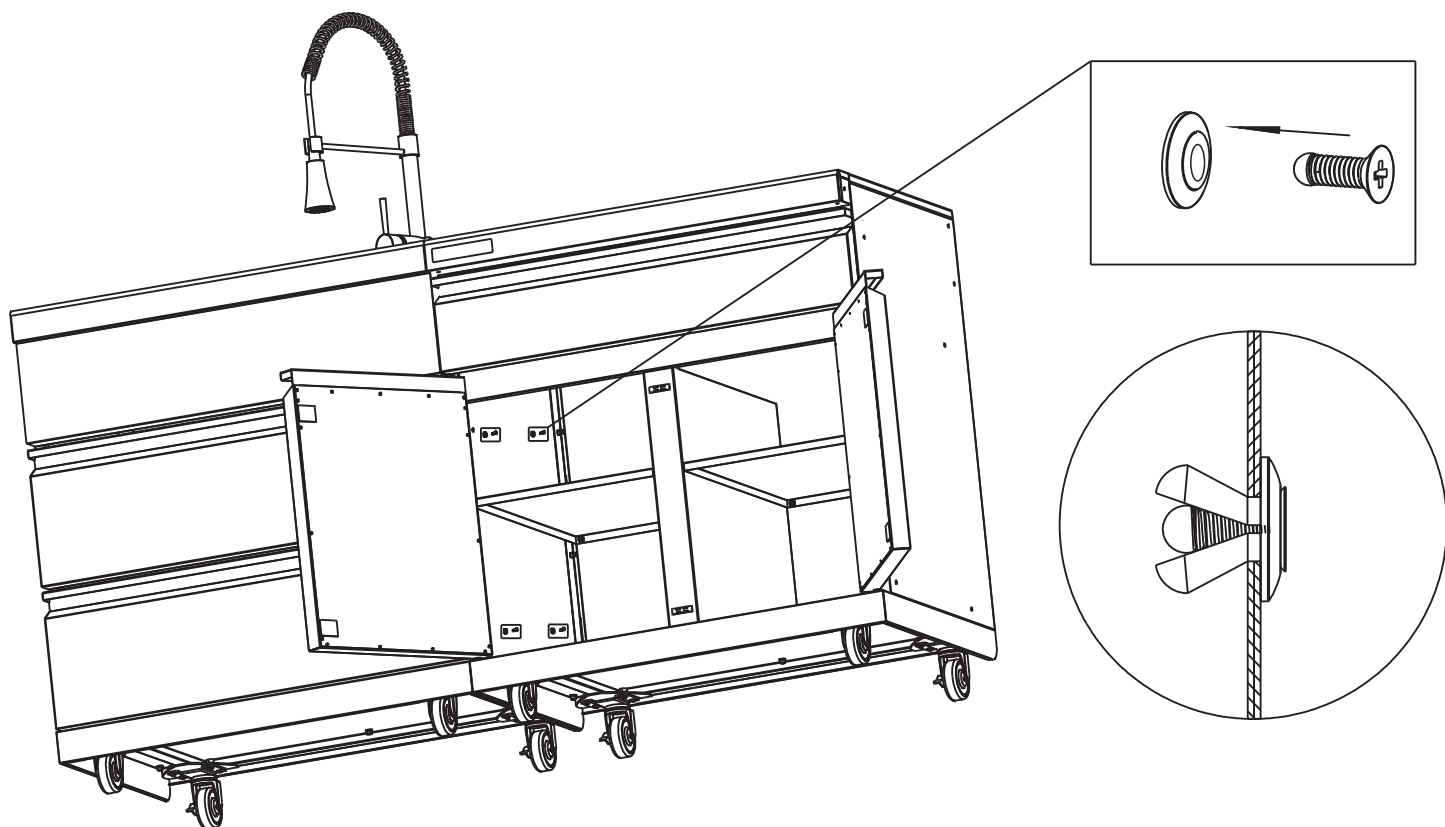

Code: GTBENCHK

Note: For tap assembly, refer to the separate instructions packed with the tap.

To connect two modules together:

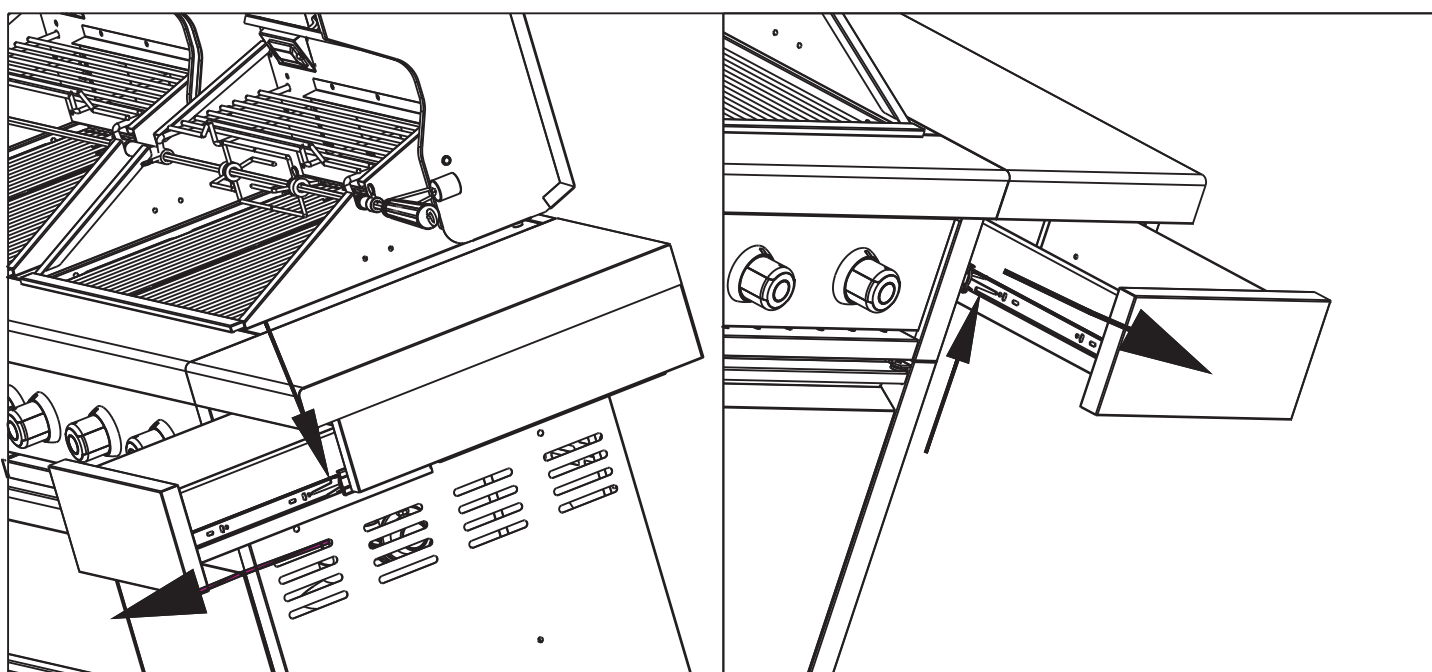

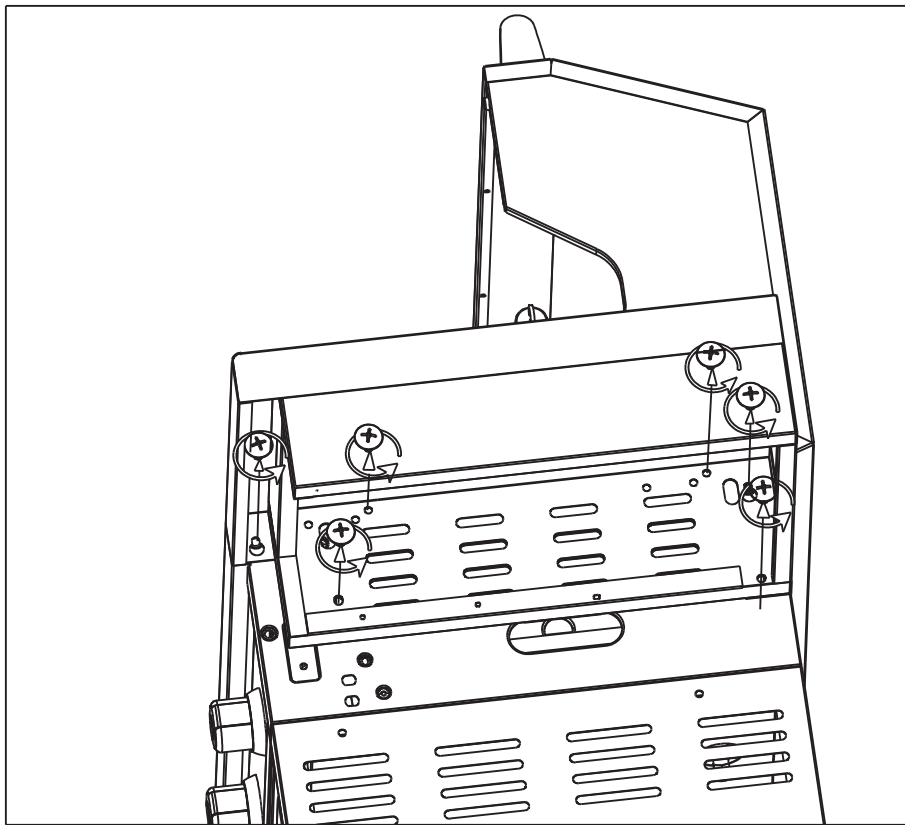

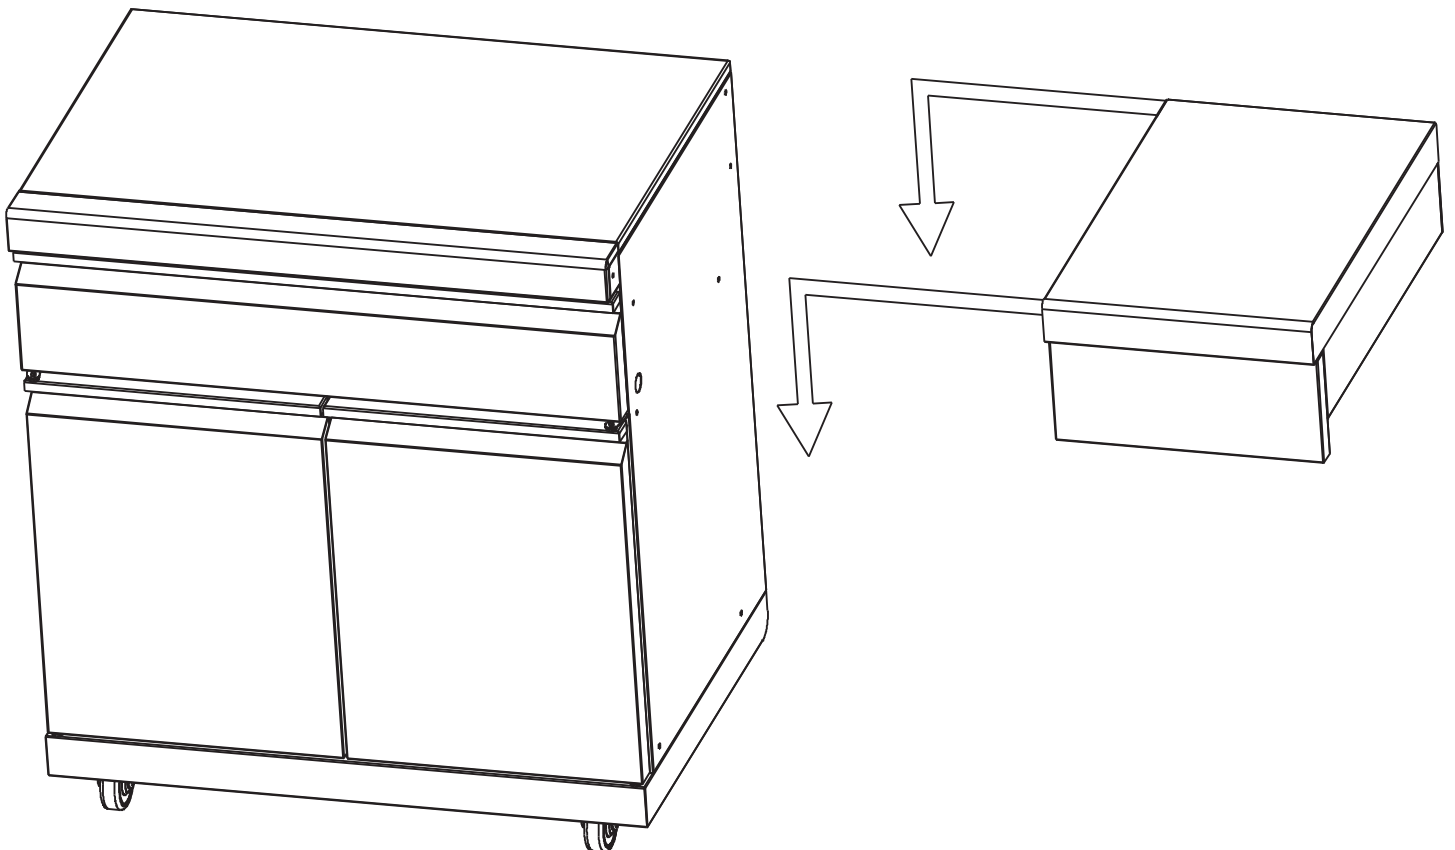

To connect to the right side of Grand Turbo Barbeque.

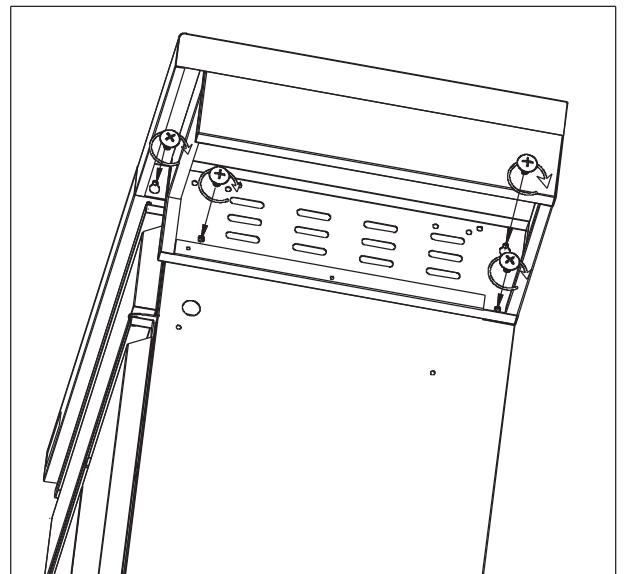

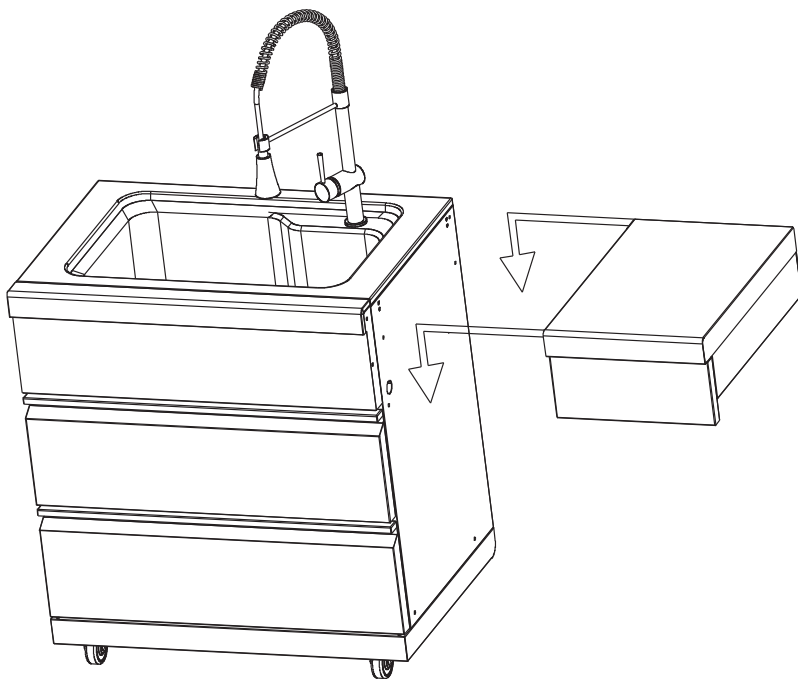

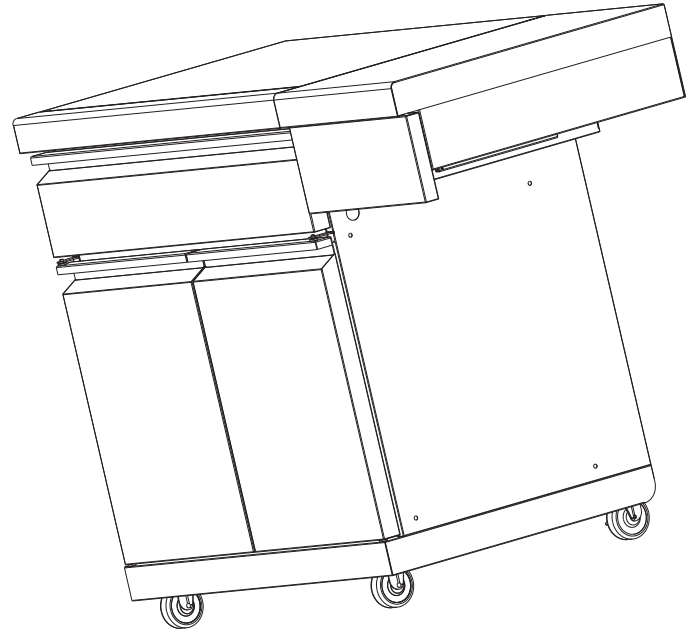

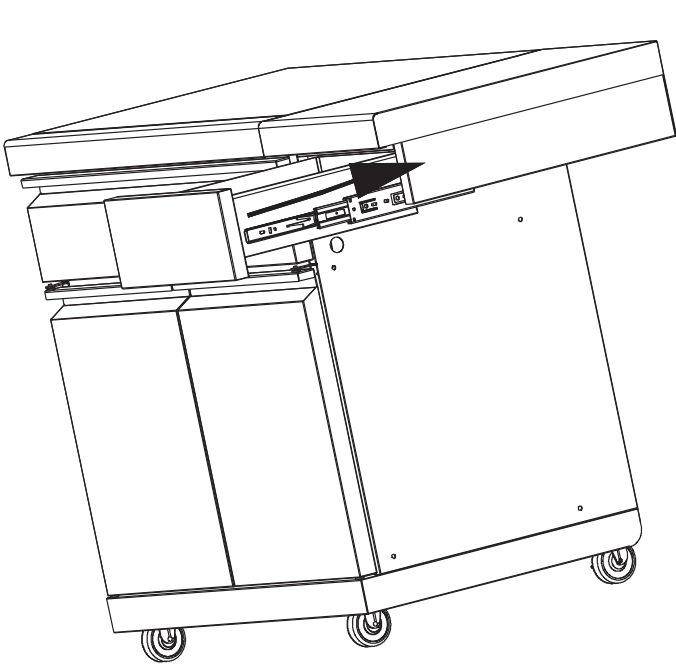

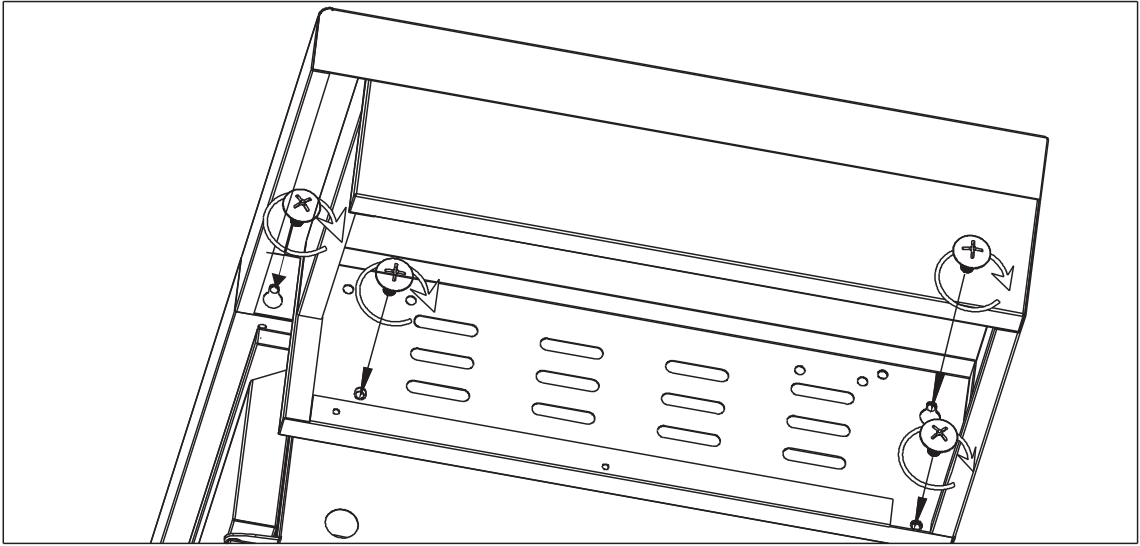

1. Remove the drawer and existing side shelf from the barbeque.

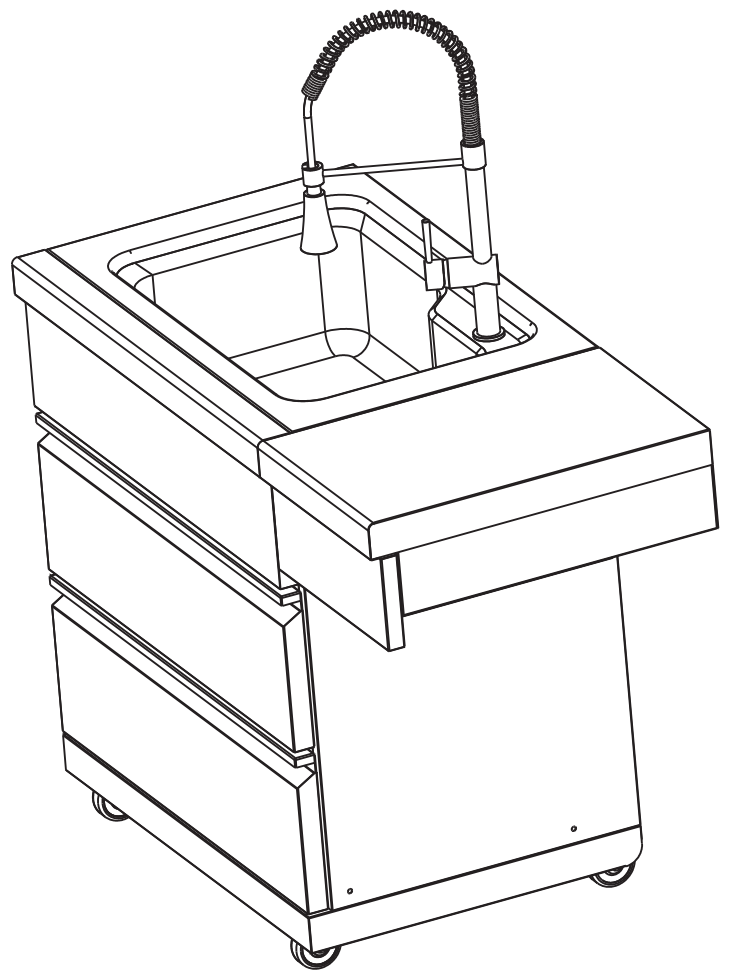

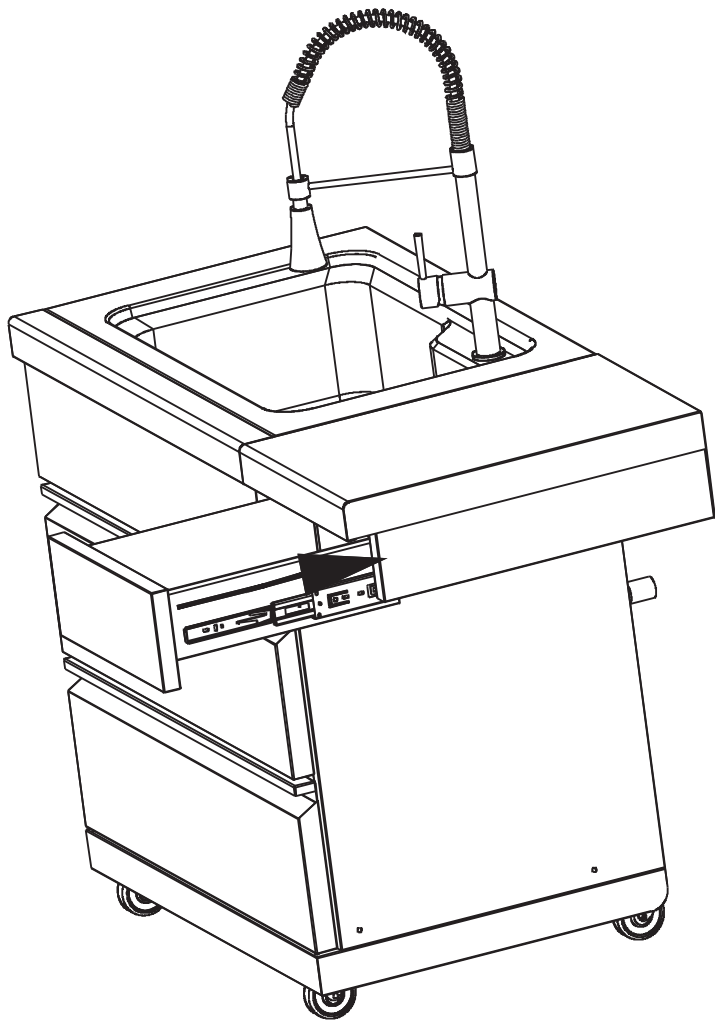

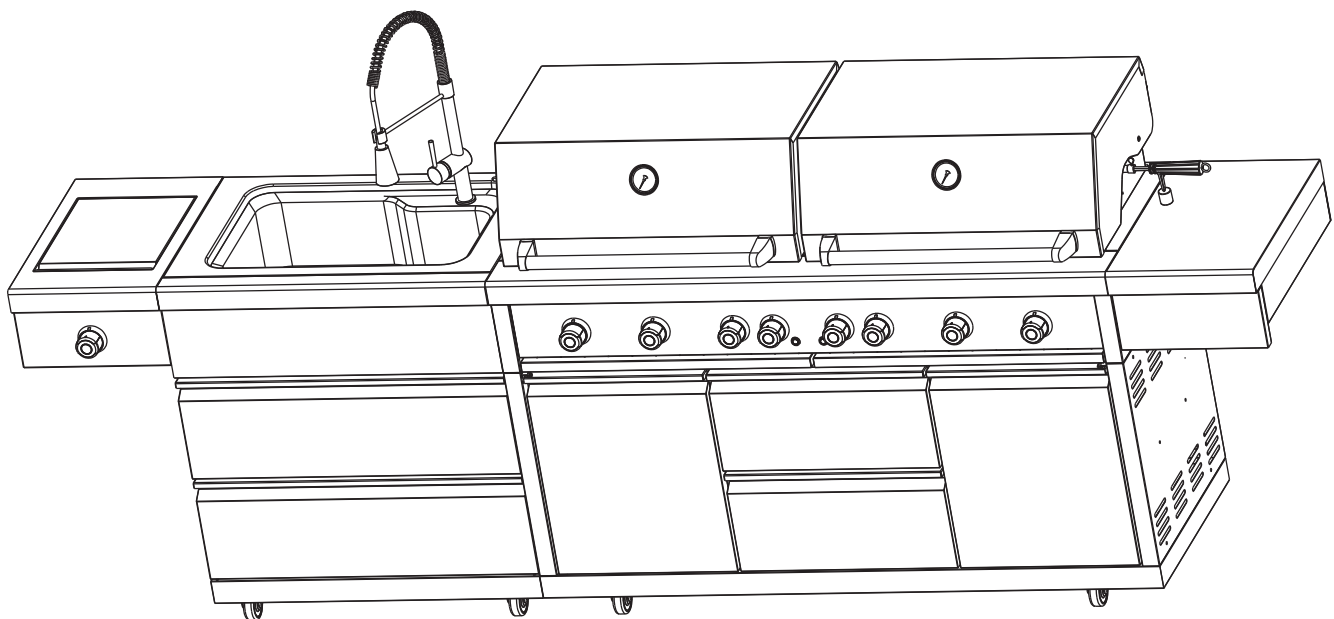

2. Follow the directions above to connect the barbecue and the module together in the same way that two modules connect together.
3. If required, refit the right side shelf and drawer to the side of the module.

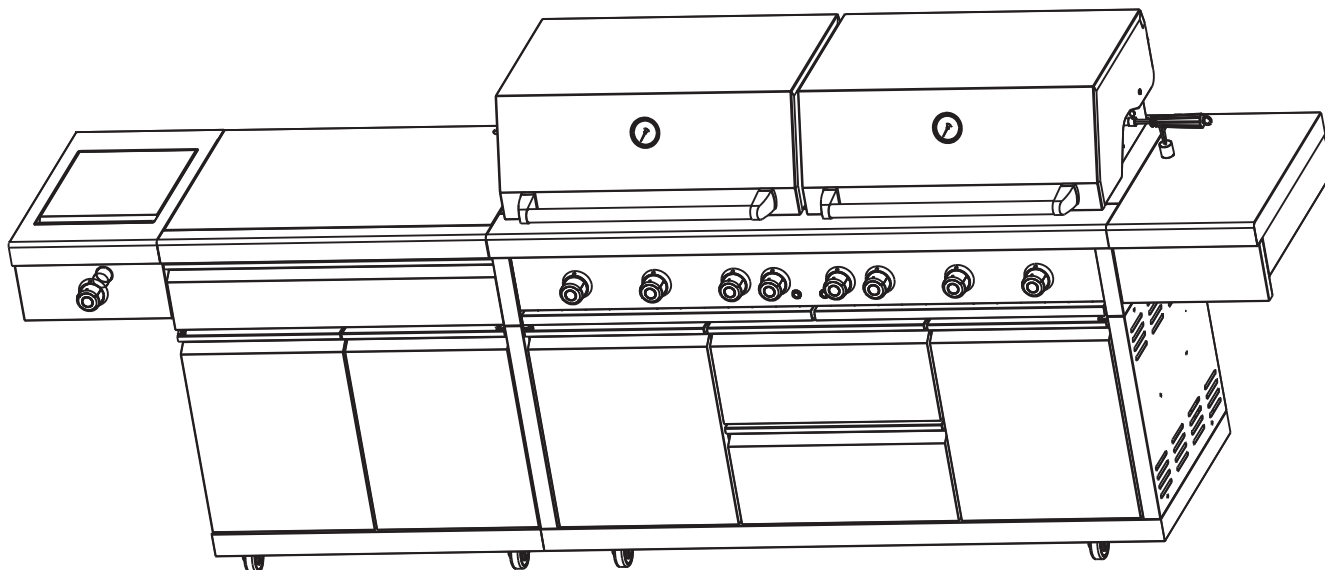

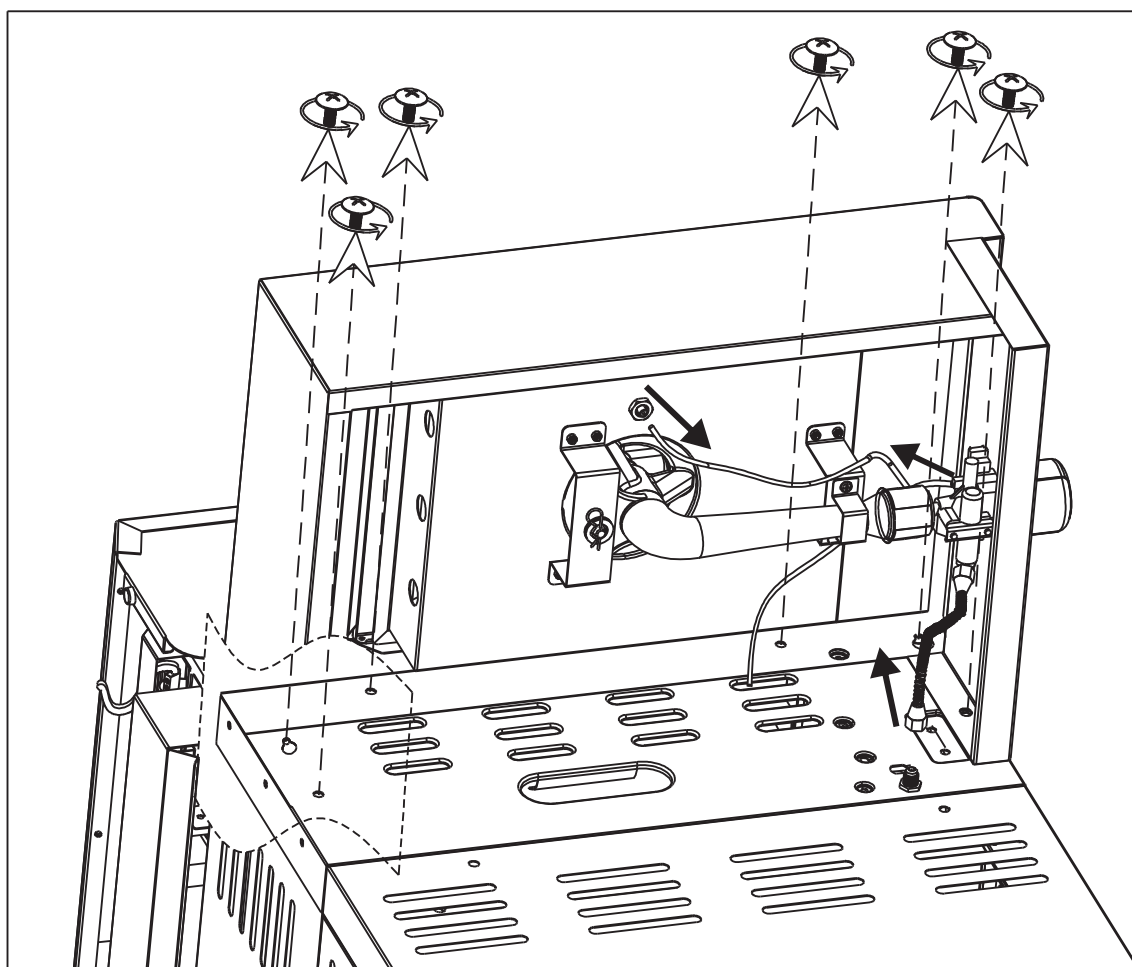

To connect to the left side of Grand Turbo Barbeque and reconnect the side burner. Note separately supplied part code: GTSBCONNECT (corrugated steel hose extension) is required to do this:

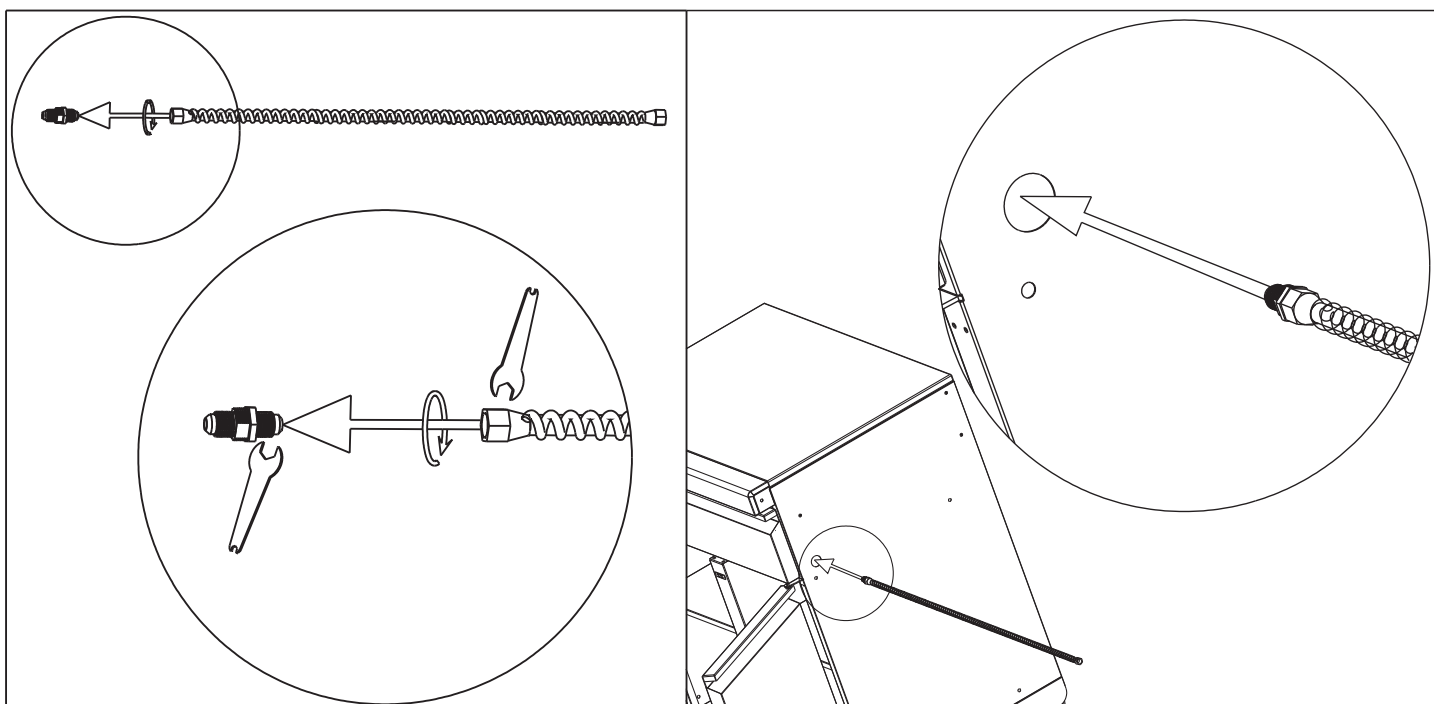

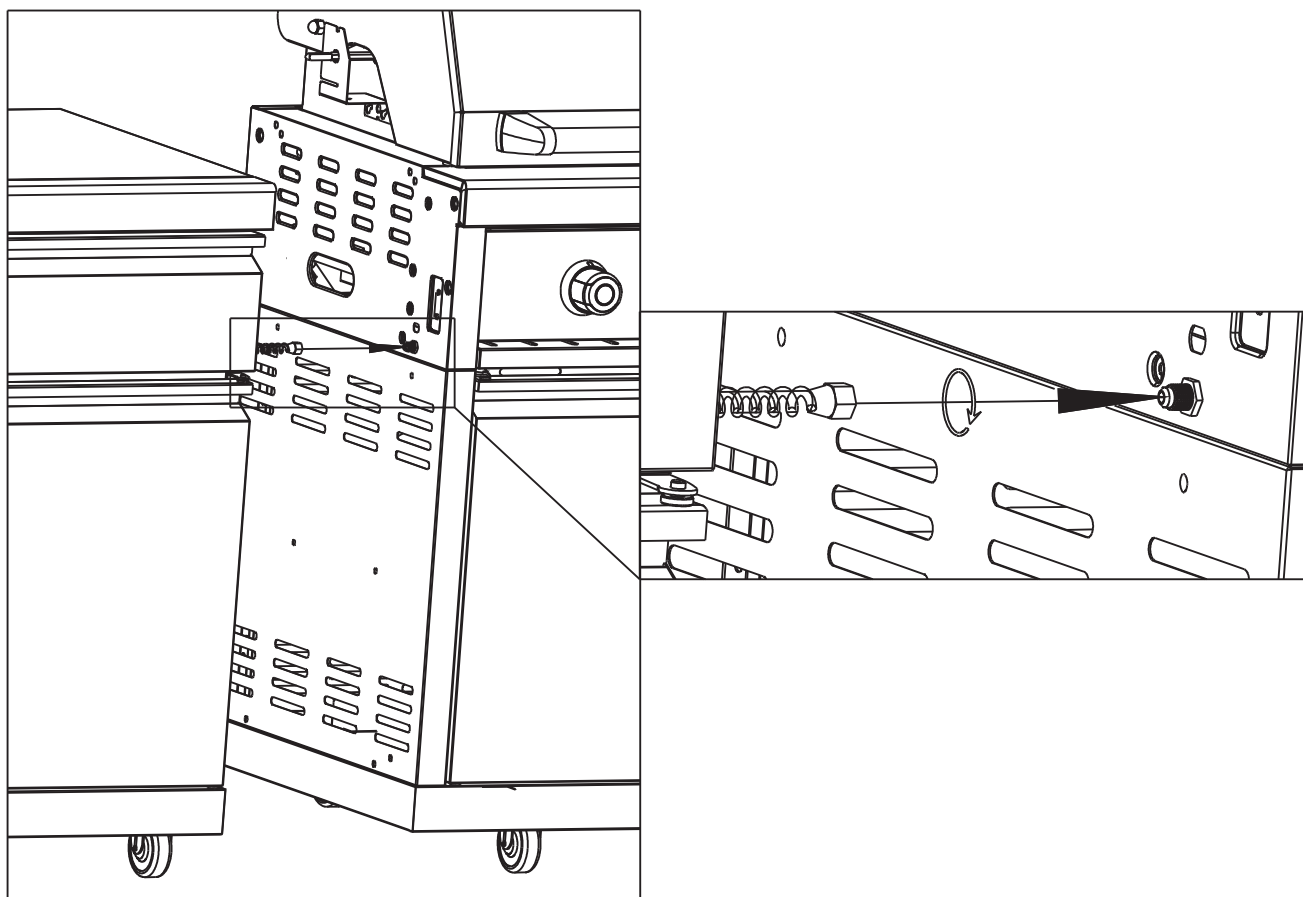

1. Disconnect the barbeque completely from the gas supply. Remove the side burner and existing side shelf from the barbeque, taking care to disconnect the side burner hose at the side of the barbeque firebox.

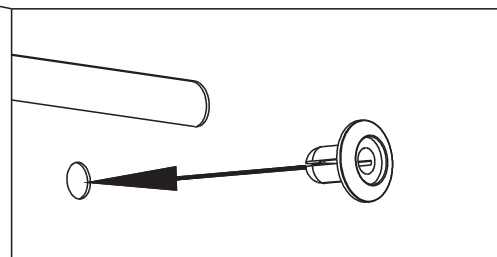

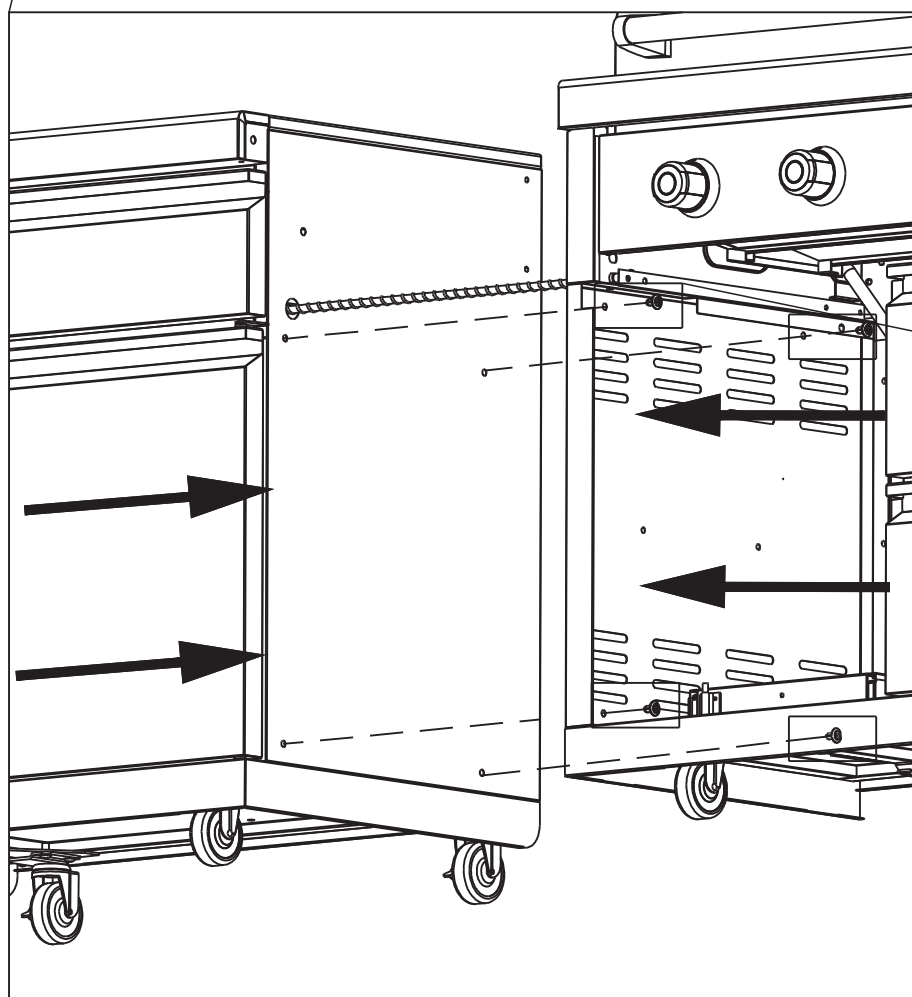

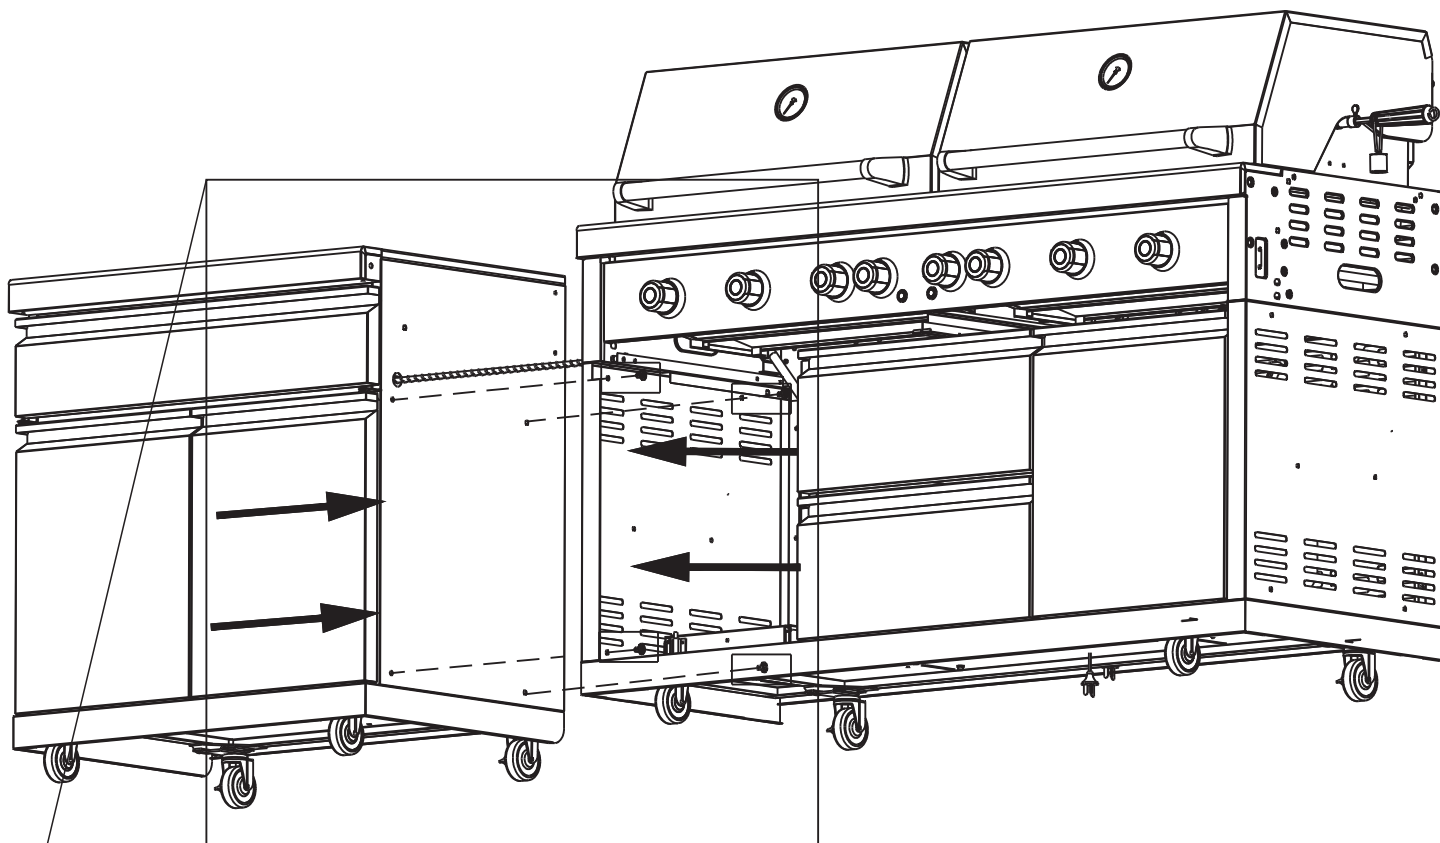

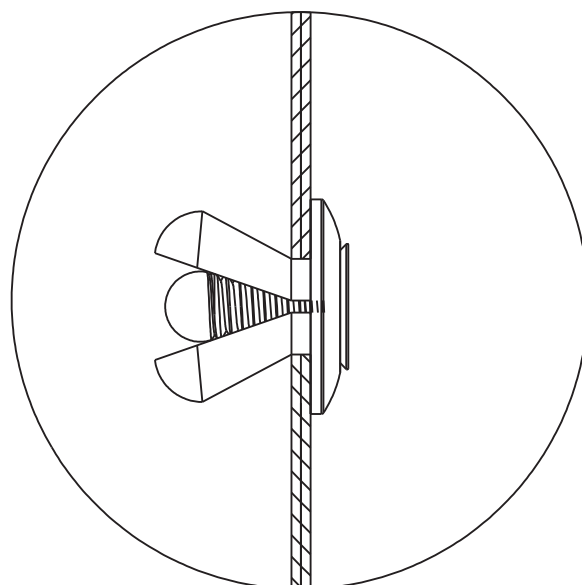

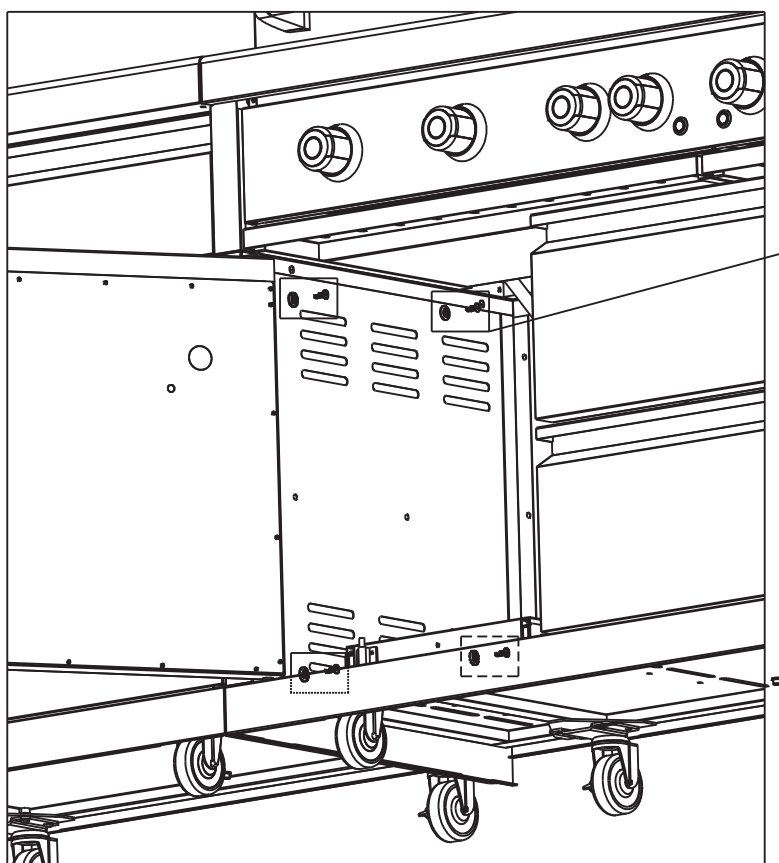

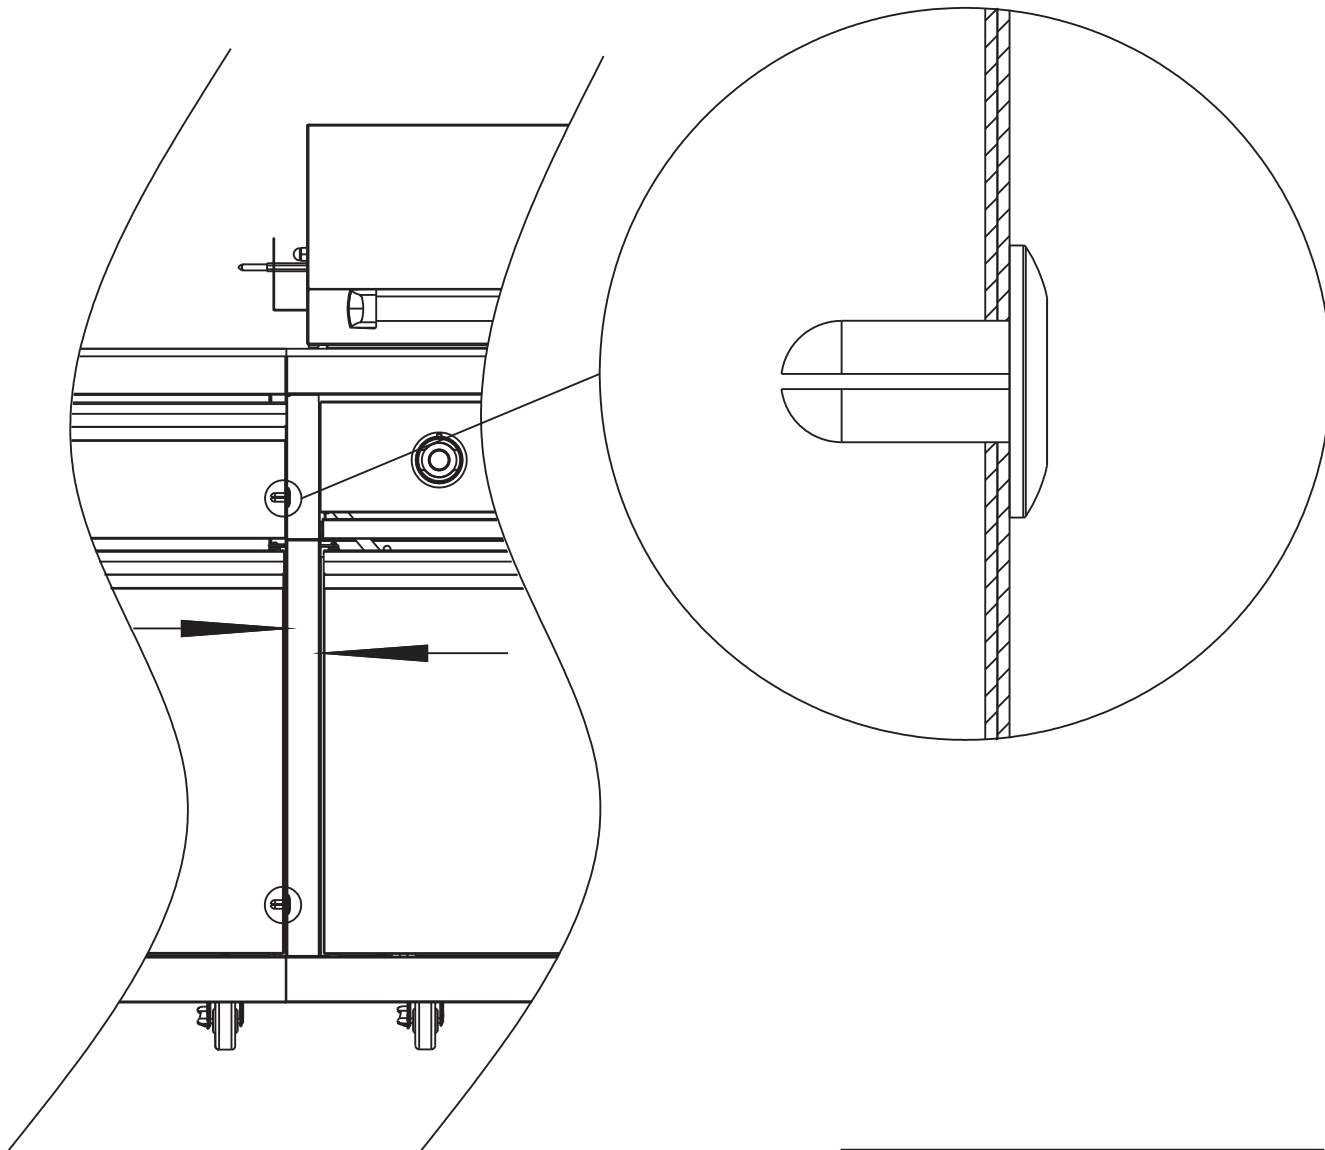

2. Connect the corrugated steel hose extension (GTSBCONNECT) to the module.

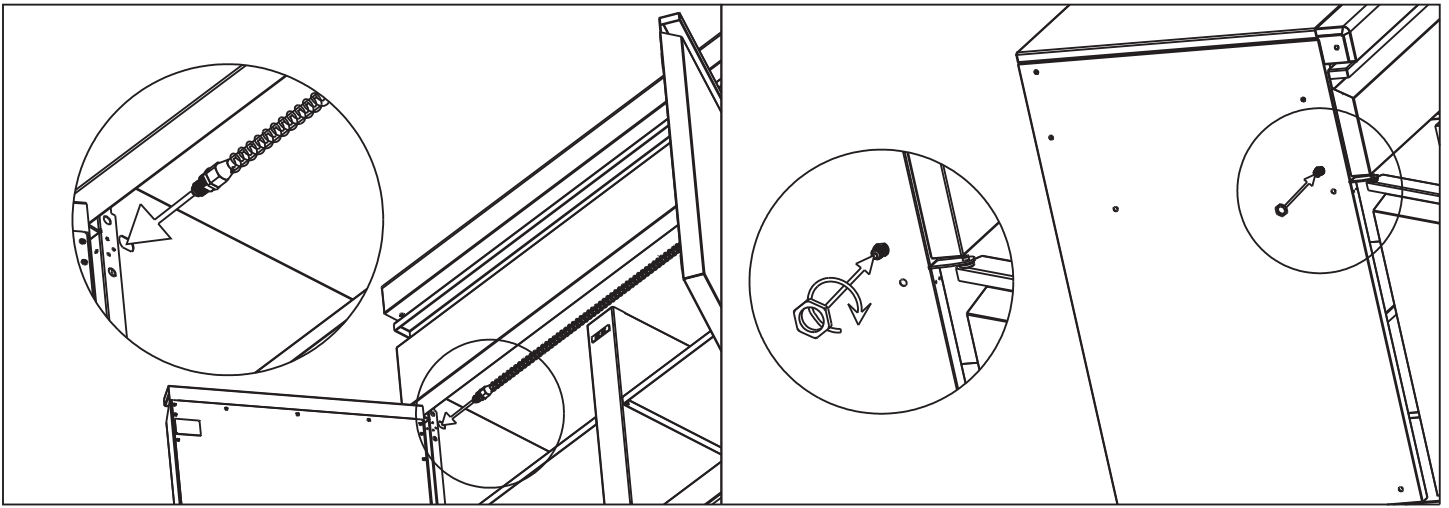

3. Connect the module and corrugated steel gas extension hose to the barbeque. Follow the directions above to connect the barbeque and the module together in the same way that two modules connect together.

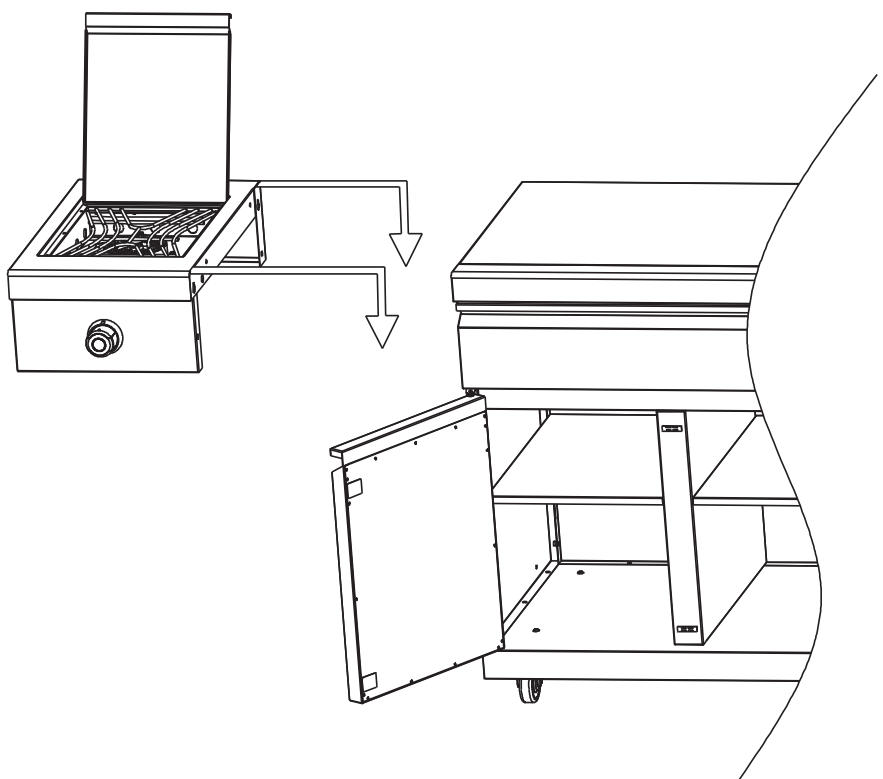

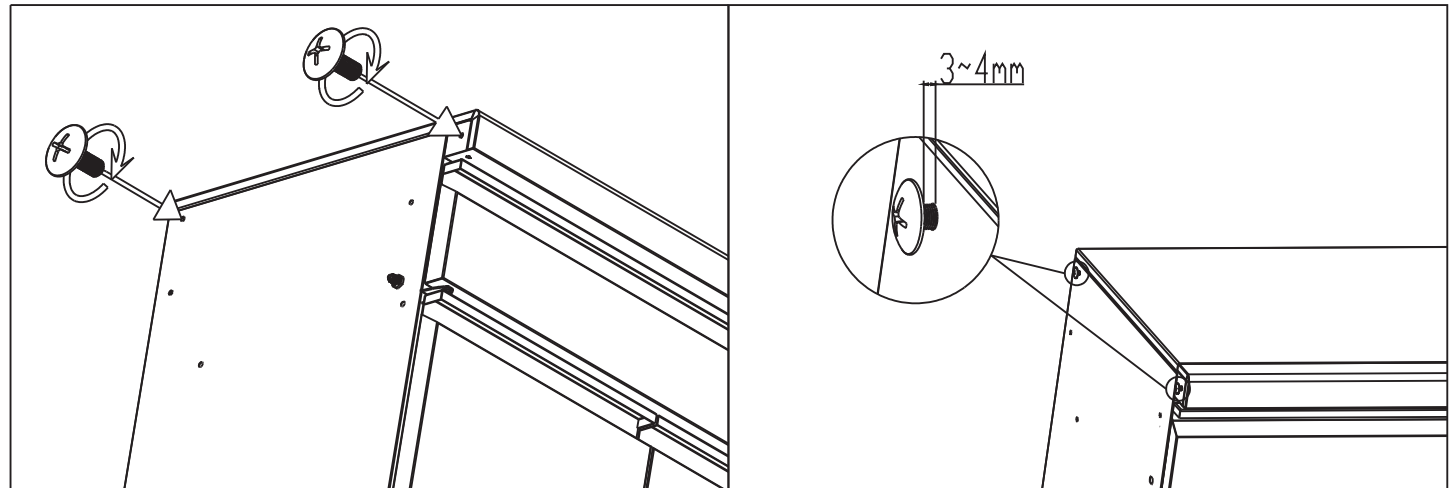

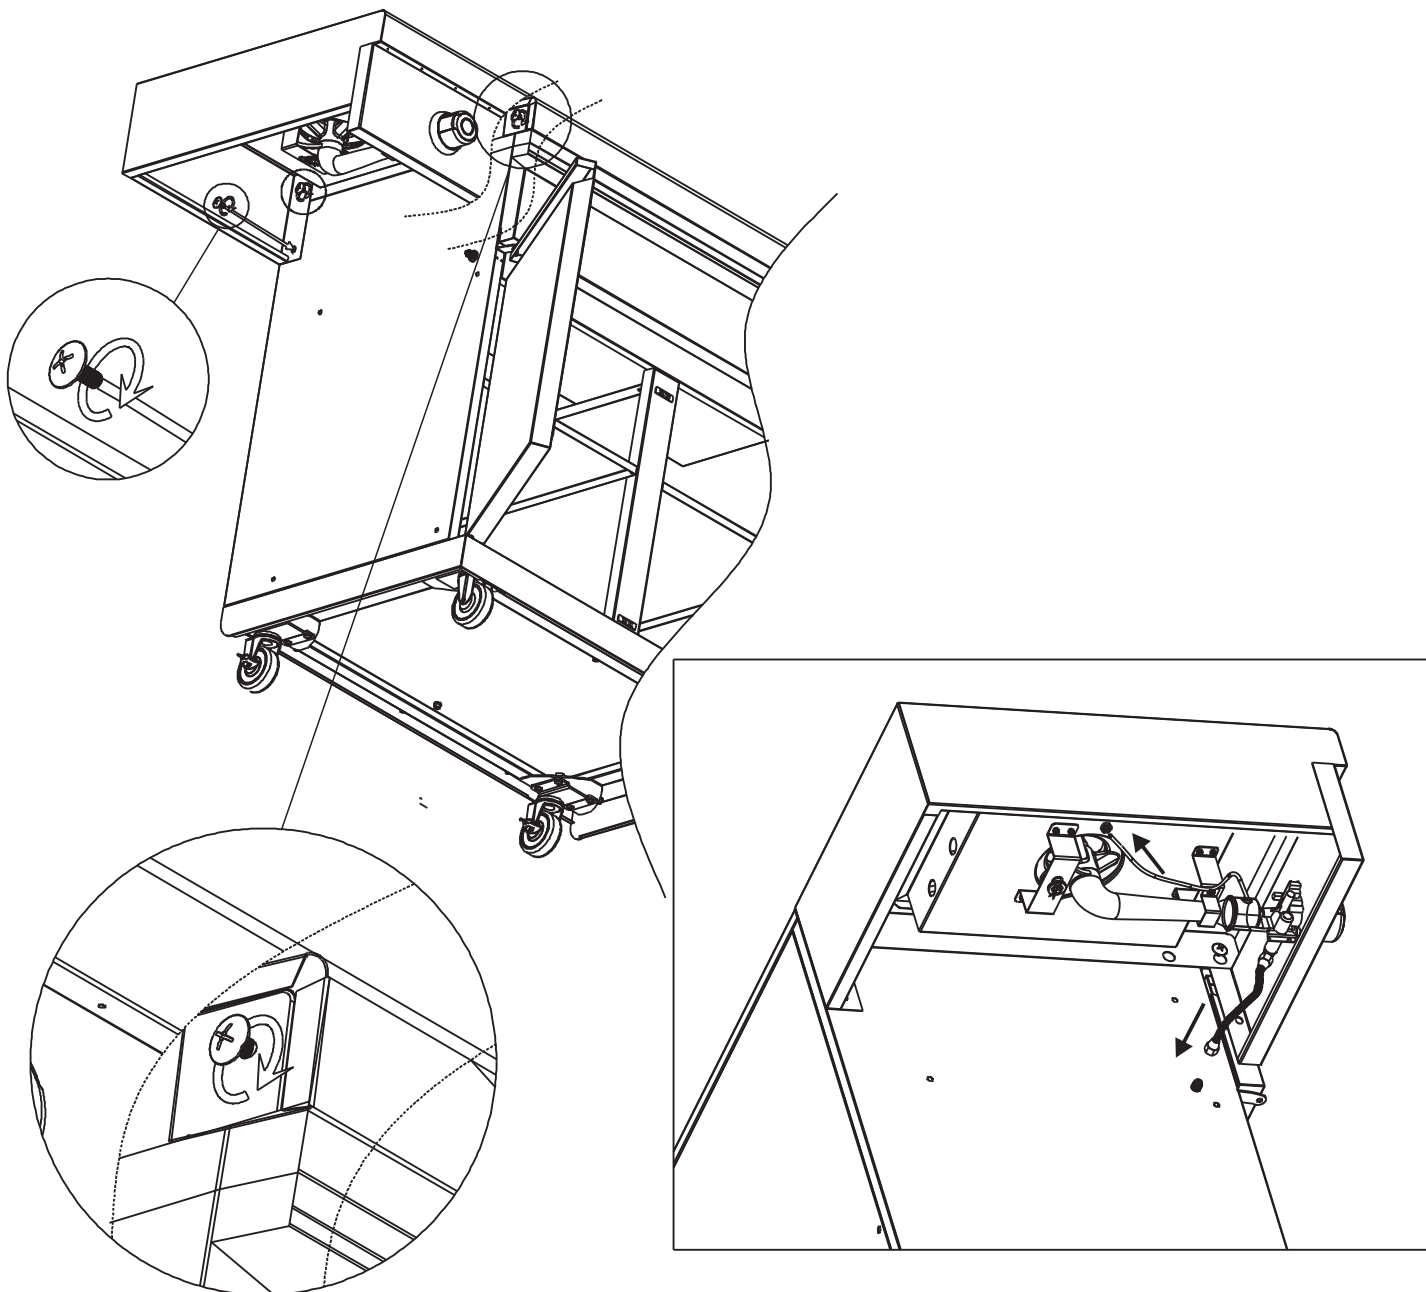

4. Refit the side burner to the side of the module and reconnect the gas.

WARNING: A full leak test must be carried out on the full gas train especially any new connections before use!
